

ORDINANCE TO REPEAL REQUIREMENT THAT RAILWAY COMPANY
DISPLAY A SIGN ON RANDOLPH STREET ON THE APPROACH OF A TRAIN

WHEREAS –

(1) City Code section 50-454 reads:

Sec. 50-454. - *Watchman at certain crossing.* The Norfolk and Western Railway Company shall keep a watchman at Randolph Street crossing who shall, on the approach of a train or locomotive, give due warning to travelers on Randolph Street by displaying a sign with the word "Stop" thereon, the letters composing the word "Stop" to be not less than four inches high; provided, that during darkness in place of such "Stop" sign the watchman shall give warning by displaying a red light.

(2) Section 50-454 is obsolete for several reasons, including that the location described, formerly Randolph Street but now Fernway Avenue, has an inactive rail line that has inactive automated rail crossing signals.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF DURHAM ORDAINS:

Sec. 1. City Code section 50-454 is repealed in its entirety.

Sec. 2. This ordinance is effective when adopted.
